

Formulary Search Tool Now Available!

We recently implemented a search feature in our online commercial and qualified health plan formularies. You don't have to log in to take advantage of this tool. Visit **hap.org**, select *I'm a Provider* and look for *Commercial drug list tool* and *Qualified health plan drug list tool* under *Provider Resources*. You can search by drug and then easily view all drugs in the same category to see formulary/tier status, restrictions and alternatives.

Health care providers

[Become a provider](#)

[Provider resources](#) ←

[Care guidelines](#)

[Credentialing and forms](#)

[Admission & Transfer](#)

[Management On-Call Schedule](#)

[Commercial drug list tool](#)

[Qualified health plan drug list tool](#)

[Contact information for providers](#)

[Provider portal log in](#)

We are confident this feature will better meet your needs for prescription management for your HAP patients.

Watch for future enhancements to our formularies!
